

OFFICIAL WHITEPAPER

ABSTRACT

What is the best part of gambling? **Winning!** In 2021, the US recorded over **\$53 Billion** in gambling revenue... This doesn't even include all the action taken outside of casinos or sports betting apps, including all of the gambling done in Crypto.

The number of people worldwide purchasing sports picks from professional bettors, otherwise known as handicappers, is on a sharp incline... There are also elite gambling funds, but they typically have extremely high minimum investments (**often over \$100k USD**).

Well at **Shiba-WorldCup**, we are giving everyone the chance to invest as little or as much as they want in a gambling fund run by the best handicappers out there!

These pros are so good that many sportsbooks won't even take their bets!

Join the action and watch how good these pros really are!

INTRODUCTION

At **SHIBA-WORLDCUP**, we are giving everyone the chance to invest as little or as much as they want in a gambling fund run by the best handicappers.

These handicappers are so good that many sportsbooks don't take their bets!

Join the action and enjoy these benefits as holders

HOW IT WORKS

1

The Shiba worldcup will start at an initial size pre-public launch. 50% of the amount of the pre sale will be used to grow the fund.

2

Shiba world token taxes will also be used to grow the fund

3

Every week, 70% of the total fund value is contributed to a gambling stack. This stack will be bet throughout the following week.

4

Earnings from the weeksbets will be shared with token holders through a stake smart contract and re-invested into the fund as well as used to buyback and burn Shiba Worldcup tokens, boosting the price and increasing the liquidity.

**EVERY TIME THERE IS A BIG WIN, THE CHART PUMPS,
THE TOKEN SKYROCKETS AND THE BETTING STACK GETS BIGGER!**

18 DECEMBER	—	Final of Worldcup end of Worldcup bets and start betting on regular league from Spain, Italy, England, German and France

SAFU

What is the best guarantee to invest in a pre-sale? A powerful marketing campaign, a capable team, liquidity locked for a minimum of 1 year, no Tokens in circulation other than those sold in the pre-sale **Shiba World Cup** has all that, but what if we add additional insurance for the buyer?

20% of the total raised in the Presale will be used to buy the **Shiba World Cup** token list, what better way to give the investor some good X than to directly repurchase the Tokens sold to those who only seek a short-term profit, do jeezts scare us ?

Not to Shiba World Cup!! we ourselves will buy their tokens. and after this to win many BnB with the benefits of the bets, Shiba World Cup, let the game begin!

FAQ
